EDUCATION

University of Central Florida (UCF) – Orlando, FL

Aug 2025 - Aug 2027

Bachelor of Science, Information Technology

- **Coursework:** Databases, Object Oriented Programming, C Programming, Computer Network Concepts, Physics II, Security in Computing, Web Analysis and Applications, IT Project Management, System Analysis and Design

Valencia College – Orlando, FL

2023 - 2024

Associate in Science, Computer Science

- **Coursework:** Databases, Object Oriented Programming, C Programming, Computer Network Concepts, Physics II, Security in Computing, Web Analysis and Applications, IT Project Management, System Analysis and Design

Valencia College – Orlando, FL

2021 - 2023

Associate in Arts, General Studies

- **Coursework:** Databases, Object Oriented Programming, C Programming, Computer Network Concepts, Physics II, Security in Computing, Web Analysis and Applications, IT Project Management, System Analysis and Design

PROFESSIONAL EXPERIENCE

RK Garage Doors

Dec 2024 - Present

Technical Associate

Orlando, FL

- Analyzed website performance data using Google Analytics, identifying trends that helped improve online lead generation.
- Gathered requirements from the operations team to plan a new digital scheduling system.
- Created dashboards and reports in Excel to track customer service metrics, supporting management decisions.

TECHNICAL SKILLS

- **Tools & Software:** SQL, Microsoft Office (Word, PowerPoint, Excel), C programming, Python, PowerBI, Excel
- **Analytical Skills:** Requirements gathering, data interpretation, process improvement, Data Analysis, Quantitative Analysis
- **Languages:** English, Arabic
- **Other:** Real estate contract knowledge, customer service, teamwork
- **Technical Skills & Coursework:** Databases, Object Oriented Programming, C Programming, Computer Network Concepts, Physics II, Security in Computing, Web Analysis and Applications, IT Project Management, System Analysis and Design

PROJECTS & ACADEMIC WORK

Database Query Optimization & Insights Project (SQL)

Aug 2024 - Nov 2024

RK Garage Doors

University of Central Florida (UCF) – Orlando, FL

- Worked with a team in designing and managing a relational database system to simulate real-world business data.
- Developed and executed advanced SQL queries (JOINS, subqueries, and aggregations) to extract actionable insights from structured datasets.
- Optimized query performance and data retrieval efficiency through indexing and normalization techniques, improving response times.
- Presented findings in a formal report that identified data trends and informed decision-making scenarios.

Data Visualization & Reporting Dashboard (Excel)

Aug 2025 - Oct 2025

Database

University of Central Florida (UCF) – Orlando, FL

- Directed an academic data-analysis initiative using Excel to transform raw datasets into interactive dashboards.
- Applied advanced formulas (VLOOKUP, IF, INDEX-MATCH) and pivot tables to clean, organize, and analyze financial and operational data.
- Designed dynamic charts and KPI summaries to communicate insights clearly to non-technical audiences.
- Collaborated with team members to automate repetitive calculations.
